

“Please support the NWPA ALF “Solidarity Glass Block Bank Project”. The plan is to do small runs to help augment the orders we have and keep our members working. Solidarity is important, together we can do it. We are the only glass block manufacturer in the U.S.A.. Thanks for the Solidarity! ”,

Tim Gotshall, Cor. Sec., USW 1019.

MAKING OF OUR GLASS BLOCK BANKS

Our customized banks will be made by Pittsburgh Corning in Port Allegany, PA. They have a patented process to combine the beauty of art and glass, creating murals and accent glass blocks.

Our custom images will become a permanent part of the glass block bank. Traditional craft blocks have a large hole in the top for ease of handling. The glass blocks used during construction of walls, murals, windows, showers stalls, etc., have no holes in them. Our Banks will have a thin slot at the top and hole and plug in the bottom for access to your savings.

Please support your Union Brothers and Sisters through our “Solidarity Glass Block Bank Project”.

*Remember, you can buy Pittsburgh Corning Glass Blocks at Glass Block Specialties, McClure & McClure and Home Depot, but our custom banks can only be purchased through the NWPA ALF.

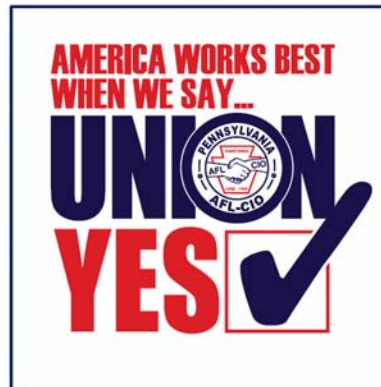

Below are a few examples of images for glass block banks:

This Bank is available now...

Visit our website to see banks as they are available:

“Solidarity Glass Block Bank Project”

The Northwestern Pennsylvania Area Labor Federation “Solidarity Glass Block Bank Project” will further our mission by helping save union jobs in Port Allegany, Pennsylvania and raise money towards perpetually funding our scholarships.

Here’s how you can help...
