Bylaws Committee April 2016

The Committee met this month and reports the following:

The Committee continues to make good progress in reviewing all the provisions of our current bylaws that we believe require revision. The number of changes needed, however, has led us to revise our timeline for presenting a package of changes for an up or down vote by the membership.

Originally we had hoped to present the package at the April and May membership meetings with a vote at the June meeting. We would propose instead that the Local organize a special two-hour meeting in May at which this Committee will present and explain the various changes contained in its package. The Committee believes that this will give members a greater opportunity to ask questions and receive a full explanation of the changes being proposed. The Committee would then present the package at the June and July meetings and the hold a vote on the package at the August membership meeting.
